Course Introduction / Overview:

In today's dynamic healthcare landscape, effective financial management and operational budgeting are critical for organizational success. This Healthcare Financial Management and Budgeting Training Course offered by BIG BEN Training Center provides participants with a comprehensive understanding of the principles and practices that underpin sound financial decision-making in healthcare settings. The course delves into key areas such as financial planning, cost control, revenue cycle management, and budget analysis, equipping participants with the skills to navigate the complexities of healthcare finance. Drawing upon the insights of leading experts like Michael Porter, whose work on value-based healthcare has revolutionized the industry, this course emphasizes the importance of aligning financial strategies with organizational goals. Participants will explore concepts discussed in "Healthcare Finance: An Introduction to Accounting and Financial Management" by Louis C. Gapenski, gaining practical knowledge applicable to real-world scenarios. BIG BEN Training Center is committed to providing high-quality training that empowers healthcare professionals to excel in their roles and contribute to the financial health of their organizations.
