Advanced Customer Loyalty Programs for the Leisure Sector Training Course

15 - 19 Nov 2026

Manama

4400 € (Per Person)

Ref: #EL5803_224582

Course Introduction / Overview:

This comprehensive course provides a deep dive into the art and science of creating and managing successful customer loyalty and membership programs specifically for the dynamic leisure industry. In a sector driven by experiences and discretionary spending, building a loyal customer base is paramount for sustainable growth. This program moves beyond basic reward schemes to explore the psychological drivers of loyalty, the strategic design of tiered and personalized programs, and the data-driven techniques required for optimization. Drawing on principles from leading experts like Frederick Reichheld, a key figure in loyalty economics and author of "The Loyalty Effect," participants will learn how to transform transient guests into passionate brand advocates. The curriculum is designed to equip professionals with the skills to calculate customer lifetime value, design compelling value propositions, and leverage technology for seamless member engagement. At BIG BEN Training Center, we focus on practical application, ensuring that attendees can immediately implement strategies to increase customer retention, drive repeat business, and enhance brand equity in a competitive marketplace. This course is the definitive guide to building loyalty that lasts.

Target Audience / This training course is suitable for:

- Marketing Managers and Directors.
- Customer Relationship Management (CRM) Specialists.
- Loyalty Program Managers.
- Hotel and Resort General Managers.
- Guest Relations and Customer Experience Managers.
- Business Development and Strategy Professionals.

Course Offerings:

By the end of this course, the participants will have able to:

- Design a comprehensive loyalty program framework from concept to launch.
- Analyze customer data to create targeted segments for personalized offers.
- Develop a multi-tiered membership structure with compelling benefits.
- Calculate and track key performance indicators (KPIs) such as redemption rates and member engagement.
- Master communication strategies to enhance the member experience and drive participation.
- Evaluate and select the appropriate technology and CRM platforms for program management.
- Implement gamification and experiential rewards to increase emotional loyalty.
- Formulate strategic partnerships to expand program value and reach.
- Measure the financial impact and return on investment (ROI) of loyalty initiatives.
- Forecast future trends in customer loyalty to ensure long-term program relevance.

Course Methodology:

The training methodology at BIG BEN Training Center is designed to be highly interactive, practical, and engaging, ensuring that participants can translate theoretical knowledge into real-world skills. We employ a blended learning approach that combines expert-led presentations with hands-on activities. The course heavily features case study analysis of successful loyalty programs from leading global leisure brands, allowing participants to deconstruct what makes them effective. Interactive workshops and group brainstorming sessions will challenge attendees to design their own mock loyalty programs, from defining objectives to creating a benefits structure. Role-playing scenarios will be used to simulate member interactions and problem-solving situations. Furthermore, the course incorporates data analysis exercises using sample datasets to practice segmentation and personalization techniques. Ample time is allocated for peer-to-peer discussions and Q&A sessions, fostering a collaborative learning environment. Our facilitators provide continuous feedback and guidance, ensuring every participant leaves with a clear action plan and the confidence to implement sophisticated loyalty strategies within their organization.

Course Agenda (Course Units):

Unit One: The Foundations of Loyalty in the Leisure Industry

- The Psychology of Customer Loyalty and Retention.
- Differentiating Between Transactional and Emotional Loyalty.

Something to think about:

How can a leisure brand create genuine emotional loyalty that transcends transactional rewards and price sensitivity?

What unique qualities does this course offer compared to other courses?

This course distinguishes itself through its exclusive and deep focus on the leisure industry, a sector with unique dynamics such as high seasonality, intense competition, and an experience-driven value proposition. Unlike generic loyalty courses, every module, case study, and practical exercise is tailored to the specific challenges and opportunities within hotels, airlines, theme parks, and other leisure businesses. We move beyond the conventional wisdom of simple points-based systems to explore sophisticated strategies in emotional loyalty, community building, and the design of experiential rewards that resonate deeply with the modern leisure consumer. The curriculum integrates strategic design with data analytics and marketing execution, providing a holistic 360-degree view of loyalty program management. Participants will not just learn the "what" but the "how," with hands-on workshops focused on financial modeling, ROI calculation, and technology selection. The course emphasizes creating programs that are not just profitable but also become an integral part of the brand's identity and a key differentiator in a crowded marketplace.
