COURSE INTRODUCTION / OVERVIEW:

This comprehensive training course provides an in-depth exploration of the critical intersection between international trade compliance and the specific regulatory framework of Saudi Arabia's Zakat, Tax and Customs Authority (ZATCA). In today's interconnected global economy, navigating the complexities of cross-border trade is paramount for business success, and failure to comply can result in significant financial penalties and operational disruptions. This program is meticulously designed to equip professionals with the essential knowledge and practical skills to manage import and export operations efficiently while ensuring full adherence to ZATCA's evolving requirements, including the mandatory e-invoicing (Fatoorah) system. As noted by trade expert Dr. David Widdowson in works like "A Practical Guide to Customs Procedures," a deep understanding of customs law and procedure is the bedrock of a resilient supply chain. BIG BEN Training Center has developed this course to bridge the gap between general trade principles and the unique, localized demands of the Saudi market. Participants will gain a holistic understanding of customs valuation, tariff classification, Incoterms 2020, and the strategic implementation of compliance programs, transforming regulatory challenges into a competitive advantage for their organizations.

COURSE METHODOLOGY:

The training methodology at BIG BEN Training Center is centered on creating an immersive and practical learning experience that extends beyond theoretical knowledge. This course utilizes a blended approach that combines expert-led instruction with highly interactive and participatory learning modules. Participants will engage in detailed case studies drawn from real-world scenarios involving ZATCA compliance, allowing them to analyze complex problems and develop actionable solutions. Collaborative group discussions and workshops will encourage peer-to-peer learning and the sharing of diverse industry perspectives on challenges such as e-invoicing integration and customs valuation. Practical exercises will be a core component, where attendees will work on tasks like tariff classification, completing customs documentation, and simulating audit responses. The sessions are designed to be dynamic, with ample opportunity for Q&A and direct feedback from the instructor. This hands-on, problem-solving approach ensures that participants not only understand the regulations but also acquire the confidence and competence to apply their new skills directly to their professional roles, driving immediate value for their organizations.
