COURSE INTRODUCTION / OVERVIEW:

This intensive training course is designed to equip new and experienced supervisors and team leaders with the essential skills and leadership best practices required to build and manage high-performance teams. In today's dynamic work environment, the role of a supervisor extends beyond simple task management to encompass coaching, mentoring, and fostering a culture of continuous improvement and employee engagement. This program provides a comprehensive roadmap for navigating this complex role effectively. Drawing on foundational management principles, such as those articulated by the renowned author Peter Drucker in his works on effective management, the course delves into practical strategies for communication, delegation, and performance management. Participants will explore proven techniques for motivating team members, resolving conflicts constructively, and leading their teams through organizational change. BIG BEN Training Center has developed this curriculum to bridge the gap between being a team member and becoming an influential leader, ensuring that every participant leaves with a clear action plan to enhance their supervisory skills and drive team success.

SOMETHING TO THINK ABOUT:

How can a supervisor effectively balance the need for empathetic leadership with the organizational demand for high performance and results?

WHAT UNIQUE QUALITIES DOES THIS COURSE OFFER COMPARED TO OTHER COURSES?

This course distinguishes itself by focusing on the holistic development of a supervisor, moving beyond a simple checklist of management duties to cultivate a genuine leadership mindset. While many programs teach the "what" of supervision, our curriculum is meticulously designed to master the "how" through practical application and situational learning. We emphasize the development of emotional intelligence and adaptive leadership, enabling participants to tailor their approach to individual team members and evolving workplace dynamics rather than applying a one-size-fits-all strategy. The program integrates principles of organizational behavior with real-world case studies, ensuring that every concept is relevant and immediately applicable. A key differentiator is the final unit, which focuses on creating a personal leadership philosophy. This encourages participants to reflect on their values and strengths, helping them to build an authentic and sustainable leadership style that will not only drive performance but also inspire and retain top talent long after the course is completed.
